PREMIER ANTI-BAC CLEANER

Technical Data Sheet
v1.1 - July 2021

An antibacterial cleaner that kills viruses, bacteria and fungus, for use on all sealed interior surfaces including food preparation areas. Its innovative solution is kind to oiled finishes, meaning it won't wear the oil whilst cleaning. Extending the lifespan of the finish on the surface.

1 Product Description

Surface disinfection cleaner for all water-resistant surfaces. Acts bactericidal, fungicidal, and z. Suitable for oiled and sealed wood surfaces as well as other water-resistant surfaces such as worktops, furniture, floorings, etc.

The combination of the active substances with cationic and amphoteric surfactants enables a high surface activity and has a good cleaning effect with a comparatively low pH value.

Use biocides safely. Always read labelling and product information before use. Avoid skin contact.

2 Storage

Store in its tightly sealed original container in a cool, dry place. Protect against heat and direct sunlight. Store locked up and out of the reach of children. Do not store near foodstuffs, drinks or animal fodder.

3 Technical Data

Contains substances: less than 5% cationic surfactants.
ADR/RID: not a hazardous good as defined by transport regulations.
CLP: not a hazardous substance as defined by hazardous substances regulations.
Even when using low pollution products the customary safety measures are to be observed. Completely emptied containers can be disposed of in household waste, or taken to a recycling centre.

Manns Premier Anti-bac Cleaner is a bleach free, lightly scented, ready-to-use spray cleaner that kills bacteria, fungi and viruses commonly found in the home.

Preparation

Specifically developed for use on oiled, varnished and hard-waxed surfaces, as well as most other sealed surfaces around the home. Always do a test prior to application.

Application

Shake container and carefully decant into an empty spray bottle of the Manns Premier Anti-Bac Cleaner 500ml or other suitable spray bottle.

1. Remove loose dirt and debris
2. Spray on the area to be cleaned
3. For heavily stained surfaces leave spray to soak for 2 minutes
4. Wipe the area with a damp cloth and repeat as necessary

Allow surface to dry fully before use. Do not allow puddles to form during application. More information and Safety Data Sheet available on mannsuk.com.

Coverage

May vary. approx. 500 ml on 20 sq.m.

Storage

Ensure product is fully sealed, in original container and stored in a dry, cool, well-ventilated environment. Correctly stored product will keep for more than a year. Keep from freezing.

Precaution

Not classed as a hazardous substance, however observe customary safety measures. Avoid mixing with other substances. When decanting, wear suitable gloves and avoid splashing on clothes. Keep out of reach of children.
